## Experience

---

### Intern

Universidad Tecnológica Nacional - FRD

Campana, Buenos Aires, Argentina

Mar 2019 – Dec 2020

- Conducted research and development tasks in the Information Systems Engineering lab.

### Software Engineer

Sirius Software

Pilar, Buenos Aires, Argentina

Nov 2020 – Present

- **Dynamai:** I configured, deployed and integrated to the existing application a CMS called Strapi. Also, I worked on fixing various issues and implemented some features like social media login using React Native.
- **Hub Technical Sales:** Led the development of interactive, optimized, and scalable features using React. Played a key role in implementing a Salesforce integration on the frontend, enhancing data accessibility and streamlining processes for a more seamless user experience.
- **DateSpot:** Worked as a full-stack developer using React, Node.js and MongoDB. Also, did some DevOps tasks like DNS configuration, environments setup, server configurations, etc.
- **Sawyer:** Took ownership of features as a full-stack developer using React and Ruby on Rails with a special focus in performance, scalability and testing.
- **Tech Leader:** Led the frontend training team, conducted code reviews, and provided guidance for a Ruby on Rails and React project.

## Skills

---

**Languages:** Spanish (Native), English (Fluent)

**Programming:** React, Ruby on Rails, Next.js, Node.js, Storybook, Jest, Rspec, JavaScript, TypeScript, Ruby

**UI Frameworks:** Material UI, Styled Components, Chakra UI, Mantine UI, Tailwind CSS

**State Management:** Context API, Redux, React Query

**Database:** PostgreSQL, MongoDB, Redis

**DevOps:** Docker, Server Configurations, Deployments

**Methodologies:** Agile, Scrum, Kanban

**Version Control:** Git, GitHub, GitLab

**Infrastructure:** AWS, Google Cloud, Firebase, Heroku

**Other:** Stripe, Jira, Trello, Notion, Figma, Zeplin

## Education

---

### Information Systems Engineering

Universidad Tecnológica Nacional - FRD

Campana, Buenos Aires, Argentina

2017–2024

### Certificate in Internet of Things

Universidad Tecnológica Nacional - FRRe

Remote

Feb 2019 – May 2019
